## BRIEF HISTORY

Audubon Society of the Everglades, incorporated in 1966, serves Palm Beach County. Our mission is to promote the conservation of wildlife and the natural environment and to advance understanding of our place in the total ecological system.

Audubon Society of the Everglades offers a variety of free events. Most popular are the many field trips held throughout Palm Beach County and south Florida. Whether you are a beginning or an experienced birder, there is always something new to discover. Monthly meetings have informative programs on environmental topics, birds, conservation issues, and the Everglades. Special workshops focus on birds, native plants and sustainability. Children's activities are featured in the *Everglade Kite*. Thanks to National and Florida Audubon grants, the chapter installed a demonstration native plant garden at FAU/Pine Jog Environmental Education Center to educate the public on the critical role native plants play in conserving water and providing food and shelter for birds and butterflies.

An active conservation committee keeps constant vigil over the continuous assault on our natural resources and intervenes when necessary to protect the environment. The chapter is also the caretaker of the Audubon sanctuary islands located within the Lake Worth Lagoon.

Education is an integral part of Audubon's program. Everglades Day, our biggest family and youth group event, is held in February at the Arthur R. Marshall Loxahatchee National Wildlife Refuge. Also in February, children and adults join in the Great Backyard Bird Count. Each year the chapter selects a high school senior focusing on environmental studies to receive our Ruth and Seymour Miller Scholarship at the Palm Beach Post Pathfinder Awards. ASE has been involved in the development, implementation, judging and prize funding for the Green Schools Recognition Program open to all Palm Beach County schools. The chapter also recruits volunteers to judge the PBC District Science Fair.

The chapter's outreach includes our newsletter, the *Everglade Kite*, and exhibits at Naturscaping, Earth Day and International Migratory Bird Day. ASE works cooperatively with other environmental organizations and Palm Beach County nature centers.

In 1979 a trust donation enabled the chapter to establish one of the finest ornithological libraries in the southeast with the support and assistance of the Palm Beach County library system. Located at the county's main library on Summit Blvd. in West Palm Beach, this collection is an ongoing project containing one of the most comprehensive selections of bird books found anywhere in Florida.

We hope you will find an activity of interest and use the membership application in this brochure to become a permanent part of our organization.
